

Blood Sugar Bio Energy Patch

The Blood Sugar Bio Energy Patch has been recently upgraded with the frequencies of Berberine HCl for its natural antibiotic function. These frequencies assist in the nutritional up-take for pancreatic and liver function in blood sugar abnormalities. Consider using when experiencing: Feeling tired, sleep issues, diabetic symptoms, sweats, cravings, and feeling the 'crash' of no energy.

Note: Individuals with type 2 diabetes have a higher incidence of liver function test abnormalities than individuals who do not have diabetes. Mild chronic elevations of transaminases often reflect underlying insulin resistance.

Blood Sugar: this Blood Sugar Bio Energy Patch has been recently upgraded with the frequencies of Berberine HCl for its natural antibiotic function. These frequencies assist in the nutritional up-take for pancreatic and liver function in blood sugar abnormalities. Berberine is a chemical found in several plants including European barberry, goldenseal, goldthread, Oregon grape, philodendron, and tree turmeric.

The blood sugar concentration or blood glucose level is the amount of glucose (sugar) present in the blood of a human or animal. The body naturally tightly regulates blood glucose levels as a part of metabolic homeostasis.

With some exceptions, glucose is the primary source of energy for the body's cells, and blood lipids (in the form of fats and oils) are primarily a compact energy store. Glucose is transported from the intestines or liver to body cells via the bloodstream, and is made available for cell absorption via the hormone insulin, produced by the body primarily in the pancreas.

Glucose levels are usually lowest in the morning, before the first meal of the day (termed 'the fasting level?'), and rise after meals for an hour or two. Blood sugar levels outside the normal range may be an indicator of a medical condition.

This patch has been recently upgraded with the frequencies of Berberine HCl for its natural antibiotic function. These frequencies assist in the nutritional up-take for pancreatic and liver function in blood sugar abnormalities.

Application: Consider using when experiencing: Feeling tired, sleep issues, diabetic symptoms, sweating, cravings, and feeling the 'crash' of no energy.

Use in conjunction with: Bio Energy Patches that can be used to boost effectiveness and in conjunction with Blood Sugar Patches are: Healing XL, Circulation, Cleanse, D-Tox, Digest, VIR, GSH-Scar Tissue, Stress/Anxiety, Pain & Inflammation and Kidney, Thyroid, Adrenal, Bladder (KTAB)

Tips: Drugs are not very effective at preventing the complications of diabetes, including heart disease, blindness, impotence, amputations, and kidney damage. The Blood Sugar patch is effective when used correctly with a good diet and proper hydration.
