### Product Summary

The Rehab Patch - Outpatient Treatment \$199 month supply

### Product Description

A one month supply of the Rehab Patch. No matter what addiction you are stuffing from the Rehab Patch will use Bio Electric Frequencies to cause your brain to release Dopamine which provides a feeling of pleasure and satisfaction.

## Example

When your body senses satisfaction from any stimulant such as a chemical substance it reaches the brain in about 10 to 20 seconds. This causes a chemical called dopamine to be released in the brain.

Instead of taking the chemical substance, the rehab patch will release Dopamine within 15 minutes and lasts for up to 72 hours. The Rehab Patch has no drugs and no chemicals so you are 100% safe from any reactions to any current drugs or chemicals in your body.

Depending on the chemical substance withdrawal symptoms you can apply more than one patch to the upper left hand shoulder for the 72 hours of relief from withdrawal.
